## Little Shop of Monsters #OnLincoln

**URL:**

[www.dalekids.com](http://www.dalekids.com)

**Where:**

430 Lincoln Road

**When:**

Every Saturday and Sunday from  
October 1st - October 30th / 1-4pm

**Short Description:**

Little Shop Of Monsters #OnLincoln

Join us on a month-long series of workshops as we transform an empty store space into a Halloween haven through a celebration of art and creativity! Each weekend workshop will delve into a different element of art, such as painting, papier-mâché and sound design, where guests will make custom kooky creations, like Halloween masks, movies and zines; all leading up to the big reveal on October 30th of all creations made! Kids and families are encouraged to attend!

**Workshops Schedule:**

**October 1st - 2nd; 1-4pm**

**Monster Character Building**

Everyone is a little Dr. Frankenstein in their own rite at this two-day event! Here, your little monster will create their own little monster through art, and bring that creature to life through a series of steps. First, kids will conceive their creations at the idea center, where they can customize and color pre-made monster outlines, or create their own. Next, kids will learn how to enhance and boost their beasts to ensure that they are larger than life! Lastly, kids will paint their productions, truly making their custom creepy creations alive!

**October 8th 1-4pm**

**Make Your Own Mask Workshop**

With Halloween steadily approaching, kids will have the option to choose just what they want to be for Halloween here. At this workshop, children will discover the joy that comes from creating their own costumes. Having an array of shapes and sizes from which to create a mask from, participants will be encouraged to exercise their unique creativity in making their own mask for Halloween, or just for fun!

# LINCOLN RD

## **October 9th 1-4pm**

### **Spooky Sound Making and Engineering Workshop**

With the lead of a Sound Engineer, children will learn how to create fun, spooky sounds! At this workshop, kids will be introduced to tools they may never have had access to, allowing them to record and distort every day sounds to make them eerie and unique. They will also be able to participate in singing and recording Halloween favorites like The Monster Mash. The songs and sounds gathered at these recordings will be collected into a soundtrack that will premiere on the October 30th unveiling.

## **October 15th 1-4pm**

### **Mounted Wall Head Monsters Workshop**

Not all mounted heads have to come from living things! This workshop highlights the use of papier-mâché in making monster busts to use as wall decor for our unveiling of Little Shop of Monsters #OnLincoln. Children will learn how to use papier-mâché not just to make their own mounted wall heads - they will learn how to use the same technique to make their own fun creations at home.

## **October 16th 1-4pm**

### **Spooky Movie Making Workshop**

This two-day event will encourage creativity in a team building atmosphere. Children will be divided into teams and create the story for their movie amongst themselves. They will have an array of costumes to choose from as wardrobe for their own spooky movies. Finally, their production will come together as they make their movies, bringing their own stories to life!

## **October 22 1-4pm**

### **Sock Puppet Theatre Workshop**

Workshop attendees will have the opportunity to make their own Halloween-inspired sock puppets! Tools and instruction will be provided as kids create their own kooky character puppets. Then, they will have the chance to perform in our spooky puppet theater for all participants to enjoy.

## **October 23 1-4pm**

### **Pumpkin Painting Workshop**

There's only so much you can do when carving a pumpkin. No need for knives at this workshop! At this event, paint and materials such as googly eyes and jewels will be provided to allow kids to make a pumpkin that's truly unique!

# LINCOLN RD

**October 29 1-4pm**

## **Zine Making Workshop**

On the last weekend, we would love to document all of our workshops and experiences with a zine that our guests can take home. Implementing the crafts of zine making and photography, participants will learn new skills and techniques that they will be able to carry on and use beyond Halloween.

**Oct 30 1-4pm**

## **Unveiling**

On the final day, we will allow our guests to join in all the activities highlighted in each of our workshops leading up to the main event! The final product of all of our guests' work will be unveiled at the Little Shop of Monsters #OnLincoln as we celebrate our creativity with our own monster bash. All are encouraged to participate and attend!
